Detail Description About the Proposed Approval as below

Mr Thatte's Brain Phenomena ie Mr Thattes Brain an Information TeleporterBroadcaster feeds information into human brains via via "ThattesBrainEntanglementWithOtherHumanBrains

. <http://www.thatte.net> <http://rpthatte.globalmarathi.com/index.htm> rpthatte@gmail.com

1.1-Schematic Presentation of Phenomena --Mr Thatte's Brain as InfoTransmitter & Body functions like Brain Activities,Respiration Digestion Blood Circulation Secretions are continuous for Lifelong ie without ON/OFF facility.Mr Thatte 'gets always noticed,can't hide' among surrounding persons

|<-Thatte's Brain Exclusively->|<--Open to public,communication Engrs/scientists-->|

|<-Personal/Body Function-->--|<--Politicians,IAS/IPS Officers,Media Persons etc-->|

| Public query NOT Allowed -->|

-- ---Sound--- |<--Broadcaster--->-->--Thatte'sBrainToBrainsEntanglement-->--|Mail Boxes

The Mail boxes inside human brains get opened(Due to trigger pulses OR Entanglement from Thattes Brain)when Mr Thatte is within five mtrs distance.

SIMILAR TO "The e-mails are stored in e-mail boxes of ISPs and are displayed on computer screen thr the use of ID and password.Mr Thatte's Presence

(Like Kasturimrug) is thus felt among surrounding PEOPLE at ALL places everywhere in world. A Man Made Teleporter Device can feed

Information into Intact human brains but with damaged Eye&Earss.This is SIMPLE Practical Approval TEST

Range Fixation-Information(Thatte's talks thoughts and actions on certain TOPICS during previous few days,weeks and month) transmitted by Mr Thattes Brain at place say A Mumbai is retained in the memory part of brains of human beings at Place B say Pune Bangalore Mathura ie 750 kms apart.Mr Thatte goes to place B and gets public verbal response thr comments/talks on "what Mr Thatte did at place" A say Mumbai.The distance between"Sending And Receiving ends" say A to B fixes the range.Mr Thatte got responded,noted in China USA but without reference to events in India.

2.1.0-Practical Methods of approval-PublicExperienceResponseComments etc

Mr Thatte have adopted initialy only Practical Methods Public Response expressed in words at public places to Past Events about Mr Thatte like work,eating,talking,reading,hearing etc even while in home"was taken as approval test

<http://www.thatte.net/AAThattesBrainPhenomenaApprovalPublicExperienceResponse.html>

Precautions --Medicos/Physicians,NOT familiar with Mr Thattes Brain Phenomena Political enemies of Mr Thatte may give wrong impression Medical Diadgostic Devices Capabilities are INADEQUATE to RETRIEVE/Verify Information received "thr five organs,Skull"and stored inside Human Brain.Therefore their own brain experiences is correct opinion.Honest Intelligent Practical "attitude is a MUST.External Information "Experienced,sensed,witnessed" by Human Beings thr all senses like Hearing,Seeing,Smell,Taste,Touch and SixthSense and approved thr statements. Following are few methods suggested

2.1.1.-Mr Thattes Silent Communication for few hours days in offices work places, libraries etc.

Initially Mr XYZ's brain will not be able to distinguish between a)Information Transmitted by Mr Thatte's brain VERSES

b)Thoughts coming to Mr XYZ's mind through his own thinking .Mr XYZ will be able to distinguish between these two, provided Mr.Thatte's brain tries to transmit wrong information about him as below

Mr Thatte & Mr XYZ are sitting in a library facing each other.Mr Thatte tries to think continuously as following

a].Mr XYZ at present is in mental asylum.b].Mr XYZ is 120 years old.c].Mr XYZ died 3 years ago.d].Mr XYZ is in NASA's Space shuttle.e]Mr XYZ is swimming in Arabian sea.f]Mr XYZ is playing football.g].Mr XYZ is speaking at public meeting.

Mr XYZ can't think about himself as above & may accept it as Mr Thatte's Brain had fed,forced it into his brain

2.12 Mr Thattes Silent Presence noted/commented by surrounding crowd & Approved by Verifying Team

Verifying Team Accompanies Mr.Thatte at crowded places like roads,big malls hotels public offices buses and bus stops,railway stations & compartments,theatres,melas etc in cities & watches the public response,talks,comments onMr Thatte These comments will be related to Information transmitted by Mr.Thatte's brain and stored in people's brains at long distances during previous two three days weeks etc

This method also APPROVE the RANGE of Information transmission from Mr Thattes Brain

2.1.3.- Verification Team Approval of Mr Thatte's Acts,Deeds Meetings etc at outstations

Mr Thatte alone goes out to say Mumbai Panvel Dombiwali Pune etc and meets/visits/talks/discuss etc with some persons Afterwards Mr Thattes return back to Rasayani.The Verification Team ,Rasayani people etc comment upon Mr Thattes meetings,visits,talks,discussions etc during outstation stay.Mr Thattes Brain transmission has fed this information already thr space into brains of Rasayani people.

2.1.4.Mr Thattes Talks in Closed Room & Public Comments at crowded roads places malls

A. Mr Thatte have discussed some old days events with Mr XYZ in a closed room.After that both go together for a walk on crowded roads/place.People's voluntary comments upon the events discussed in closed room" is noted by Mr XYZ & he approves the phenomena AND/OR

B.Mr Thatte visits Mr XYZ.Then Mr Thatte then goes away for doing 10-12 important events in 15 minutes,comes back and visits MrXYZ again.Mr XYZ will be able to identify himself about what Mr Thatte has done during that period. AND/OR

2.1.5. Mr Thatte's Broadcasting during Public Election Period

Public speeches and meetings are banned for last 48 hrs.of voting period. But Mr Thatte can do propoganda work thr Communication Broadcaster NO legal action is found possible.

2.1.6-Deaf & Dumb Persons responses to Mr Thattes Brain Transmission

.Mr Thatte talks with 3-4 persons on simple topic understood by deaf person.Deaf person sits 4-5 feet away but separed by cloth curtain & unable to see lip movements of these 3-4 persons.The deaf persons response by writing or lip movements about talk is a proof of this phenomena.This information transfer is from Mr Thattes brain into the skull of DEAF person

2.1.7.Organisations based in Mumbai/Pune area can verify the phenomenon through their reporters, informers,private detectives,social and political leaders,CID,CBI,Central Intelligence Agency,KGB,MOSAD,FIB of USA etc

3.1.0-Neurophysiology& Electrophysiology fMRI BOLD Tests Methods of approval

Important-Reasons for such long delay for above tests-

Mr Thatte have quoted/added "several relevant research papers" in this web page.Internet and search engines was the only source available from 2000 onwards.Majority of the papers are related to USA NeuroScientists These papers were not published in Indian newspapers in English regional languages.I have NOT found any suitable research paper from websites of Nimhans. The Brain2BrainsInformationTransfer Research conducted in USA from 1965 onwards (ie NeuroPhysiologyResearch) might Not have been part of MD-NeurologyPhysiologyPsychiatry Syllabus of Bombay Pune Bangalore Universities And/Or Not required in professional practice.Mr Thattes approach to Neuro Physicians from 1972 to 2013 is proved USELESS for knowing

anything about these clinical trials **This has caused 45 Years Backlog for APPROVAL of Brain Phenomena**

3.2.0 DuaneTD have conducted (NIH USA Funded) Clinical Trials in 1965. Alpha Waves Recordings Of (Eye Blink Stimulated Person A & NON Stimulated Persons B located in separate Rooms) was carried for verifying "Extrasensory Electroencephalographic Induction between Identical Twins" Dr Duane TD team have verified "The illness or Trauma in one of a pair of identical twins affects the other, even though the twins are far apart and each is unaware of the situation affecting the other." The electrophysical tests indicate capability of Person A to **Effect Voltage Change** in the brain of person B. USA Neuroscientist have thus played their role of approval and firmly stood for it. Classical Physics approval based upon "Brain Waves of approx 50 microvolts" **ie EM waves was IMPOSSIBLE**. Medical professional can not artificially grow any human. Human Science phenomena naturally developed must be investigated with Honest Intelligent Practical & fact finding attitude". USA Neuroscientists have adopted Electrophysiology Test approach for Identification Verification Approval as well Theoretical approach. USA Neuroscientists have never considered themselves as "Father of Bramhadeva" http://j-node.homeip.net/wfb/research%20archive/psi/duane_science_1965.pdf
<http://www.papimi.gr/twins.jpg>

3.3.1 Grinberg-Zylberbaum et al have conducted Clinical Trials during 1978-88 thr Faraday Chamber & VEP Recordings of a stimulated person A & Induced/Transferred Potentials of a NON stimulated person B for verifying B2B Neural Information Transfer. The VEP facility is being used for stimulating Mr Thatte's Brain & for Recording developed voltages in NON Stimulated person's Brain within ten ft distance. The BAEP facility is useful.

J. Grinberg-Zylberbaum, M. Delafior, L. Attie (All three Medical Professionals), A. Goswami (PhD in Physics) published a Pioneering paper in 1994 "Evidence for Quantum Brain Fluctuations. This is a approval of Medical & Quantum Physics professionals for Brain2Brains information transfer. Thus USA Neuroscientist have approved thr Electrophysiology Tests. The theoretical explanation for Brain2Brains Information Transfer was left to quantum physicists. Let Indian Neuroscientist please follow this practice <http://www.amitgoswami.org>

3.3.2-Neuroquantology Approach-An Interdisciplinary Journal of Neuroscience and Quantum Physics.

<http://www.neuroquantology.com> <http://www.thatte.net/NQ2012EditorNeuroQuantologyJournalTenYears.pdf>

4.1.1 The Phenomena was published by Late Mr Purushottam R Behere in Navashakti Nov 1978. & by Late Mr Pramod Navalkar Shivsena MLA in Marmik Apr 1979. <http://www.thatte.net/ThatteBehereNavashaktiNov1978.jpg> <http://www.thatte.net/ThatteNavalkarMarmik01Apr1979.jpg>

4.1.2 Late Mr T A Swaminathan B Tech (Chem), Ex CMD of HOCL during 1975-77, had strongly supported my phenomena & wished to refer for CISR Research. Mr Thatte's Engineer friends of HOCL ie Mr Bhate, Mr Raje, Mr Anchawale, Mr Shende, Mr Bhadani, Mr Madhavan, Mr Patels, Mr Patil & Twenty Five others have signed an Appeal for publishing in above two papers. Approval Certificates by Mr G G Raje M Tech, Late Mr S B Anchawale B E, Mr Rajesh Shende B Tech Mr I A Patel, Late Mr J G Patel (all Hocl Employees) have Signed Approval Certificates for my brain phenomena during years 1980-81
<http://www.thatte.net/ACThattesBrainPhenomenaApproval01 By Mr GIRISH G RAJE.JPG>

5.1.1 Bastyr Uni and NIH USA have conducted Clinical Trials during 2004-06 with "Light Stimulated Person A 20' feet away AND non stimulated Person B inside fMRI for BOLD test for verifying B2Bs Neural Info Transfer. The fMRI facility with all functions is available at one or two Diagnostic Centres Hospitals in Pune Mumbai Bangaluru without "light stimulation checker board" This is delaying the Test based upon fMRI & BOLD method.

6.1.1- Biological Teleportation -i) http://www.stealthskater.com/Documents/Skeggs_05.pdf Spontaneous Biological Teleportation by TGSkeggs
ii) http://arxiv.org/PS_cache/arxiv/pdf/1012/1012.5166v1.pdf Montagnier Nobel Scientist-DNA's New Property & Induced EM waves in water dilutions.

7.1.0-Teleportation Physicists are requested i) Approval of the Phenomena ii) Develop means of breaking Brain2Brains Entanglements for giving relief to Mr Thatte iii) Develop a Teleporter Device for relief to Deaf & Blind Persons.

7.1.1- Identification of sub atomic particle quark subquark etc related to" Mr Thatte's Brain Phenomena ie Biological Teleportation" may be MOST important for Development of Teleporter Device. The study by Neurobiologists & Teleporter Physicists might be useful in this respect.

I Approve the Phenomena
